

Traditional Ankara Houses Renewal Project

Category	Historic Ankara House
Location	Ankara
Status	Completed

Renewal of traditional Ankara houses with stone ground floors and timber-framed upper floors: facades, bay windows, eaves, joinery, kündekari ceilings and timber staircases.

Scope of work

Andesite stone ground-floor walls; timber-framed upper floors and bay windows; eaves, window and door joinery; kündekari, lattice and battened timber ceilings with carved roses; timber staircases and balustrades; interior floors and walls; courtyards and landscaping.
